Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

I think they would help as most times cultural events are too quadrant specific.

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

upgrading some of the facilities would help our future. However, a mid size arena will not be enough if the NHL changes and decides to let their players come.

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

It might hinder a little as other mass transit projects may have to wait ~~as~~ the money has been spent elsewhere.

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

If the impact plays out as the plan lists it would help. Unfortunately there are still too many unknowns.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

I don't have enough info on the cost split between all levels of government to decide if it is worth the cost.

What's important to you?

These questions will help us understand what's important to you, and your views on whether hosting the Games would help or hinder Calgary's future. This part is a deeper dive into our five topics of conversation:

Community

**Venues
and facilities**

Environment

Economy

Costs

These topics are high-level categories of Calgarians' comments, concerns and interests we heard in the 2018 Citizen Perspectives Survey results released in August.

Q1: When it comes to Calgary hosting the Games, what is important to you?

Please rank on a scale of 1-5 how important you feel each topic should be in The City's consideration of whether or not to submit a bid (5 is 'not important' and 1 is 'very important'):

5 Community 4 Venues and Facilities 3 Environment 4 Economy 1 Cost

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

They will help Calgary's future. Strengthening the community will increase our resilience to disasters such as the 2013 floods.

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

They will help Calgary's future. New facilities and a legacy fund will ~~help~~ reduce the burden of maintaining sport facilities for years to come.

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

They will hinder Calgary's future. We will be forced to deal with an amount of waste disproportionate to our population because of the games and preparation for them.

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

They will hinder Calgary's future. Government coffers will be depleted in a way that does not provide as much benefit to citizens as it would otherwise.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

I do not think they are worth the cost. Many of the benefits of the games will not be relevant to me.

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

Would help - I totally understand the need / requirement in the near future to upgrade facilities - from the perspective why not use the funding being provided by various levels of government

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

If there is an economic benefit for Calgary - how will we ensure that the benefit lasts beyond the games and that we are not left holding the debt at the end of the day. → what would be the impact on citizens and our services

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

If we go ahead only the future will tell if there will be any benefits in the long term - If the economy and job situation doesn't pick up due to other stimulus - these benefits will not last long. Council needs to address current climate
