Please rank on a scale of 1-5 how important you feel each topic should be in The City's consideration of whether or not to submit a bid (5 is 'not important' and 1 is 'very important'):

__ Community __ Venues and Facilities __ Environment __ Economy __ Cost

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

This area looks good. The affordable housing should be written in stone. It was stolen in Vancouver for millions. Ensure First Nations are included.

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

New venues are a good thing. What is in the Calgary plan for 2019-22 that might be bumped for these Venues? Hard to weigh the pros/cons w/o info.

Venues to highest enviro standards - carbon neutral, solar power - made of hempcrete not concrete if possible

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

Aspirational, no concrete goals. That many people ^{travelling} would create a lot of carbon emissions. Suggest offsets by investment in solar or other ^{green} infrastructure as part of the plan

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

I am concerned about the costs. I don't see the economic benefits, with the exception of fast tracking social housing + facilities. Let's ensure there is more private funding. ^(based on past Olympics)

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

Costs are ^{very} high. I think Olympic committee should pay for extra security + services. I consider only the affordable housing to be a priority, and that can be done now without the Olympics.

Who are you?

These questions will help us reach and hear from a more representative range of Calgarians to inform City Council's decision on whether or not to submit a bid for the Games.

___ **Community** ___ **Venues and Facilities** ___ **Environment** ___ **Economy** ___ **Cost**

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

I think it would help "but at what cost"

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

*They would help Calgary future, but again at what cost.
The possibility of our runs of cost is a concern.*

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

I am not overly concerned about the environment because these people go so "over board" that they make them self heard for to much.

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

It would help in Calgary's future, as long as the cost does not restrict us our future endeavors to much.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

Not enough information to make this judgement. If part of the games are held in B.C. will BC & Vancouver pay extra, over & above, what the Canadian Government puts in.

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

I think it will help Calgary's future and put a major bump in our profile. It can help accelerate construction of much needed low-cost housing.

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

I think it will help. These venues are in need of repair anyway. And we have needed a stadium for 20 years!

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

I think it will help. Banff/Lake Louise already has too many cars. Creating infrastructure that allows for shuttle buses, out of park parking lots, local public transit can be long term infrastructure benefit. *and too little parking.*

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

HELP! It will provide a boost for small + medium businesses.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

It is worth the cost. There are VERY few major events or opportunities of this size. We already missed out on Amazon... So if not this now, then what else? And when?

Who are you?

These questions will help us reach and hear from a more representative range of Calgarians to inform City Council's decision on whether or not to submit a bid for the Games.

___ Community ☒ Venues and Facilities ___ Environment ___ Economy ___ Cost

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

This would motivate the athletes or potential athletes in the city, it would add to the city pride, it would bring our city together

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

Having an outdoor opening and closing ceremony in the middle of feb is not well thought out. Unless the upgrades include a dome over maxman stadium

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

It would help move the city forward to better and increase transit use. Bike lanes are not going to work in the winter. Clearing walking paths and increase shuttles.

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

Anything to bring notoriety to the city is going to cost money. Some way, somehow we will have to use our taxes. Increase our taxes to pay for something. Why not do something great. It's an investment into our city.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

As long as our city is well represented and we put our best foot forward it's worth it. If we are going to worry about the cost and do a half assed job - then don't bother.

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

It all depends on the business plan: whether we are strategic in ensuring we don't go over the budget. F. King & J. Furlong were business people with a vision, a strategic plan post Olympics. I want to vote yes but this is

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

We need to think post-Olympics: we should be working with the Flames to create a facility that can host more than hockey. We should be strategic with our infrastructure decisions. It is lacking in long term vision beyond affordable housing

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

I think we can be creative & use the opportunity to increase short term & long term transit solutions. Where is the communication on this?

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

It is an unknown. We are slowly coming back from the recession, Calgary/Alberta/Canada can't afford to have more debt. Where is the strong leadership from businesses to ensure it can be profitable.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

Depends on what we do. We need profitable infrastructure. The multi-sport complex should be profitable but the other 2 venues are not so this is too social minded. Social projects come from surplus revenue/income.
